

Job Description

Job Title:	Clinical Services Manager
Salary:	up to £45,000
Working Hours:	Full Time
Accountable to:	Executive Director – Clinical & Campaigns
Location:	Home-based (travel as and when required)

A bit about The UK Sepsis Trust (UKST)

Our mission is to reduce the number of lives lost to sepsis and to improve outcomes for people affected by this devastating condition. We're a small but incredibly passionate team working from locations across the UK and while we love being home-based, we make time to meet with colleagues to share thoughts and ideas and, well, sometimes just to catch up.

In addition to a competitive salary, we offer:

- Flexible working arrangements
- A contributory pension scheme
- 23 days annual leave plus Bank Holidays (pro-rata for part time staff)
- Additional long-service holidays
- Support for personal development
- A caring and supportive environment.

To apply for this opportunity, email HR@sepsistrust.org with a cover letter and CV. Closing date for applications is **5pm on Monday 31st January 2022**. Please note we will be scheduling interviews as suitable candidates apply throughout the vacancy period, so we encourage early applications.

Summary

Are you excited by a rare opportunity at the UK's leading sepsis charity to directly impact thousands of lives? Do you have experience of developing and nurturing relationships that drive improvements in healthcare? If so, we'd love to hear from you!

Sepsis is a life-threatening condition in which the body's response to an infection causes organ damage. Every year in the UK, it affects 245,000 people, claims 48,000 lives, and leaves tens of thousands of survivors facing life-altering challenges.

In this new and crucial role, you'll directly support delivery of The UK Sepsis Trust's (UKST) mission to reduce the number of lives lost to, and improve outcomes for people affected by, sepsis. You'll manage a small team, led by global sepsis expert Dr Ron Daniels (Founder and Executive Director), to reinforce UKST's leadership in:

- The development and provision of practical clinical tools, and education and training materials to healthcare professionals
- Ensuring people who've been affected by sepsis get the support they need – either in their rehabilitation or through bereavement
- Protecting people by getting the balance right between enabling rapid identification and treatment of sepsis, and antimicrobial stewardship.

In short, we're looking for a highly motivated team player with demonstrable knowledge of healthcare systems, who thrives on nurturing relationships that deliver real benefits to healthcare systems and, ultimately, people's lives.

Principal Duties & Responsibilities

- Undertake market research to re-establish the needs of our target audiences
- Review and evaluate UKST's Education and Support products and services, including against external guidelines e.g. NICE NG51
- Lead on the development of a roadmap and plan to ensure UKST products and services are accessible to those who need them
- Deliver the plan while seeking out new opportunities to increase our impact, including growth in recovery and rehabilitation services
- Nurture existing, and develop new, relationships with clients, suppliers and other key stakeholders
- Line manage the Support Team and Clinical Team
- Monitor operations, processes and impact to ensure we consistently maximise efficiency and effectiveness
- Represent UKST at events.

Personal Qualities & Skills

Essential

1. Demonstrable experience of developing relationships with clinical decision makers and realising opportunities in the healthcare sector
2. Excellent written and conversational English
3. Exemplary interpersonal skills
4. Experience of delivering innovative/ transformation in healthcare
5. Ability to lead a small team and to support colleagues' development
6. Knowledge and experience of Microsoft Office.

Desirable

1. Held a previous clinical or business/ partnership development role in healthcare
2. Evidence of published work or oral presentation at major meetings
3. A recognised management qualification.

JUST ASK
"COULD IT BE SEPSIS?"

Every year, 48,000 people die in the UK from this "silent killer".
Asking the question could save a life.
